RUTGERS UNIVERSITY

Jul 23, 2024

Rahul Ashok Jeyalakshmi

has successfully completed the online, non-credit Specialization

Supply Chain Analytics

In this Specialization, learners developed essential skills to discover and solve business problems related to supply chain management via data analytics, including, business intelligence and competitive analysis, demand analytics, inventory analytics, sourcing intelligence, and distribution and logistics strategies. The Specialization also provides a broad overview on job opportunities and intelligence, sourcing and order management, sales and operations planning, and transportation management. In each course, learners completed a real-life data-driven project to practice the skills learned.

Yao Zhao, PhD, Professor in Supply Chain Management, Co-Director of Rutgers Supply Chain Analytics Lab, Founding Co-Director of the Master of Supply Chain Analytics Program @ Rutgers Business School. Rutgers - the State University of New Jersey. USA.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
