4 Courses

Generative AI: Fundamentals, Applications, and Challenges

Generative AI: Impact on Business and Society

Generative AI: Governance, Policy, and Emerging Regulation

Generative AI: Labor and the Future of Work

Oct 21, 2024

Lecturer, Merve Hickok

Rahul Ashok Jeyalakshmi

has successfully completed the online, non-credit Specialization

Responsible Generative AI

In this Specialization, learners developed and honed an understanding of responsible generative AI. In particular, learners explored the potential benefits, use cases, and fundamentals of generative AI, analyzed the global impact, challenges, risks, and governance of generative AI, and evaluated the future implications of generative AI on business and society. Learners were assessed through multiple-choice questions to check for understanding of the content.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
